MPN BOILERS

COMMERCIAL BOILERS & WATER HEATERS PRODUCT OVERVIEW.

CONDENSING

- 7 Model Sizes
- 1,000,000 to 4,000,000 BTUH
- Up to 97% Thermal Efficiency
- Available in Heating & Domestic Hot Water Configurations
- Small footprint, less than 11 sq. ft. (1005A thru 2005A)
- Modulating gas valve and burner, up to 12.5:1 turndown
- 4" wc gas pressure
- Low NOx, less than 20ppm, (1005A-2005A)
- Whisper-quiet operation
- Comes with Versa IC digital control which allows a cascade function for up to 4 boilers

CONDENSING

- 5 Model Sizes
- 300,000 to 850,000 BTUH
- Up to 95% Thermal Efficiency
- Available in Heating & Domestic Hot Water Configurations
- Small footprint, less than 9-1/2 sq. ft.
- All models are equipped with 316L welded stainless steel heat exchanger
- Modulating gas valve and burner, up to 5:1 turndown
- 4" wc gas pressure
- Whisper-quiet operation
- Meets all current Low NOx regulations, less than 20ppm
- Comes with Versa IC digital control which allows a cascade function for up to 4 boilers

COPPER FIN TUBE

- 19 Model Sizes
- 100,000 to 2,340,000 BTUH
- Up to 85% Thermal Efficiency
- Available in Heating & Domestic Hot Water Configurations
- 4" wc gas pressure
- Bronze headers standard on water heaters, optional on boilers
- Ducted combustion air ready; TruSeal® CSA-certified direct-vent available
- Less than 20ppm NOx

COPPER FIN TUBE

- 28 Model Sizes
- 133,000 to 4,000,000 BTUH
- Up to 82% Thermal Efficiency
- Available in Heating & Domestic Hot Water Configurations
- Bronze headers standard on water heaters, optional on boilers
- Indoor / Outdoor installation
